Burpee's Hybrid Tomatoes

ALL CREATED ON BURPEE'S FORDHOOK FARMS

Unsurpassed for quality, uniformity and yield. Every seed from a hand pollinated fruit.

Sering H. Thompson, Allentown, N. J., inspecting his field of Burpeeana Early Hybrid Tomatoes

1133 Burpeeana Early Hybrid

58 days—Distinctly different extra early, true, first-generation (F₁) hybrid tomato created at Burpee's Fordhook Farms, to offset the usual shortcomings of many of the open-pollinated early varieties. Fruits of Burpeeana Early are of an attractive, deep globular shape, medium size, smooth, firm, rich scarlet, average 5 ozs. in weight, and borne profusely in clusters of from 5 to 8. Quality is excellent; flavor is mild. Plants are of spreading habit, prolific and decidedly so if high fertility and moisture are maintained in the soil. Well suited to staking as evidenced in picture at left. Profitable for early market. Burpeeana Early is also well adapted for greenhouse growing. It is an excellent shipping tomato.

1/8 oz. \$3.50; 1/4 oz. \$6.00;
1/2 oz. \$11.00; oz. \$20.00;
1/4 lb. \$70.00; lb. \$235.00;
2 to 9 lbs. @ \$225.00 per lb.

1131 Burpee's Big Boy

78 days—Largest of our true first-generation (F₁) hybrids, at its peak of production in midseason when many standard varieties decline in yield and size of fruit. Unlike other large varieties, Big Boy Tomatoes are perfectly smooth, deep globe to deep oblate in shape, very firm, extra large, average 10 ozs., some weigh 1 lb. or more. Scarlet-red skin, thick walls, bright red, meaty flesh of fine flavor and excellent quality. Plants are large, extremely vigorous and heavy producers. Readily salable in market and roadside stands.

1/8 oz. \$6.00; 1/4 oz. \$10.00; 1/2 oz. \$18.00;
oz. \$35.00; 1/4 lb. \$110.00; lb. \$325.00

1135 Clinton Hybrid

75 days—Midseason, very productive, true first-generation (F₁) hybrid developed especially for the Middlewest and well adapted to other regions. Plants are large, vigorous, with dense foliage which protects the fruit from sun-scald. Will outyield most open-pollinated varieties of the same class. Fruits are large, weigh about 8 ozs., bright scarlet, globular to oblate in shape; firm flesh of excellent quality. Recommended for market, canning, and long distance shipping.

1/8 oz. \$3.50;
1/4 oz. \$6.00; 1/2 oz. \$11.00; oz. \$20.00; 1/4 lb. \$70.00;
lb. \$235.00; 2 to 9 lbs. @ \$225.00 per lb.

1132 Burpee Hybrid

70 days—Heavy yielding, main-crop, all-purpose, true first-generation (F₁) hybrid which outyields Rutgers or Marglobe in fruit number by an average of 20%. Fruits are medium to large, average 8 ozs. in weight, deep globular in shape, smooth, scarlet-red, flesh meaty, firm; cell walls very thick, of outstanding quality and rich flavor. A valuable tomato for the market grower, canning, and distant shipping.

1/8 oz. \$3.50; 1/4 oz. \$6.00;
1/2 oz. \$11.00; oz. \$20.00; 1/4 lb. \$70.00;
lb. \$235.00; 2 to 9 lbs. @ \$225.00 per lb.

1121 Fordhook Hybrid

60 days—An early, highly productive, long-bearing, true first-generation (F₁) hybrid, noted for its big yield and uniformly shaped, smooth fruits of medium size, average 6 ozs., oblate to globular in shape, and borne in large clusters. Skin colors evenly to a clear bright red all over; flesh firm and mildly acid to sweet in flavor. You can get new production records with Fordhook Hybrid, without sacrificing fruit size, by providing proper fertilization and adequate moisture supply. Fordhook is a dependable hybrid and especially suited for early market and shipping.

1/8 oz. \$3.50; 1/4 oz. \$6.00;
1/2 oz. \$11.00; oz. \$20.00; 1/4 lb. \$70.00;

Burpee Hybrid Cucumber

ORIGINATED ON BURPEE'S FORDHOOK FARMS

370 Burpee Hybrid 60 days. High resistance to mosaic and downy mildew are the outstanding attributes of this true first generation (F₁) hybrid white spine, slicing type cucumber. Vines are extremely vigorous, long lived and bear an abundance of well-formed green fruits of handsome appearance, 8 in. and more long, 2½ in. wide, square at both ends with medium seed cavity and crispy, white flesh of excellent quality. Burpee Hybrid Cucumber outyields open pollinated varieties because the vines continue to produce their fruits most profusely for a long time after the others have ceased. Gardeners everywhere write us of the wonderful results they are having with this cucumber. Burpee Hybrid Cucumber has proved to be exceptionally well adapted to greenhouse growing, and is the leading variety of glass-house growers in the hothouse sections of the country. Its unusually high yields under glass make Burpee Hybrid Cucumber a profitable variety to grow when the market demands a quality cucumber at high prices.

½ oz. \$2.20; oz. \$4.25; ¼ lb. \$12.75; lb. \$35.00;
2 to 9 lbs. @ \$34.00 per lb.; 10 lbs. or more @ \$33.00 per lb.

"—In the past five years we have grown your Burpee Hybrid Cucumbers. The first three years we grew other varieties alongside for comparison and due to the excellent results of the Hybrid on these comparisons we have, in the past two years, grown only the Hybrid. In these years we have grown about 100 acres of these cukes and have never had a poor field; they have always outclassed and outproduced the competing varieties. . . ."

J. Bettinger & Sons, Swanton, Ohio

A field of Burpee Hybrid Cucumbers. Note the healthy foliage and the uniform fruits

HEAT-RESISTANT, SPRING FLOWERING or CUTHBERTSON SWEET PEAS

Come into bloom, outdoors, about 10 days before the Giants and remain in bloom the same length of time. Plants are quite vigorous and produce a heavy crop of large, long-stemmed blooms. Heat-resistant and therefore especially adapted to localities where sweet peas have heretofore been more or less unsuccessful. Under glass they are unusually free flowering and prolong the spring cutting season.

The frilled flowers are mostly borne four to a stem. Each has been thoroughly tested and proved to be of high quality. **1 oz. of seed will sow 25 feet of row.**

* We have marked with a star (*) the varieties that we particularly like in each color class; if you are in doubt as to which to choose, make your selection from those thus marked.

Burpee's Early Flowering SWEET PEAS

Burpee's Early Flowering Sweet Peas come into bloom outdoors before the summer heat arrives—usually 3 to 4 weeks earlier than the Burpee Giant varieties. They are valuable for winter flowering under glass, also especially adapted for growing in frost-free sections and for earliest blooms outdoors in the North. Sweet Peas do best in cool weather. If seed was not sown in the fall, sow as early in the spring as the ground can be prepared. All types of sweet peas prefer an open, sunny location, and deep, rich soil which must be well drained.

AGROMAT

Makes organic fertilizer out of leaves, garden refuse and garbage. Restores to soil minerals, vitamins, hormones. Also changes newspaper into valuable mulch.

The Agromat transforms leaves, dry or wet, garden refuse, manures, etc., as well as garbage including bones into a semi-liquid, valuable, natural fertilizer. Organic material is homogenized, odors are dispelled and the resultant material becomes unattractive to flies, rodents and domestic animals. When poured on the soil around plants, vitamins, hormones and minerals are carried down into the soil and the solids, left on the surface, dry and crumble becoming a perfect mulch and a source of supply of additional fertilizer which will be released slowly through the growing season.

Another sensational use of the Agromat is the turning of newspapers into mulch which adheres to the soil and will not blow away. When this mulch is applied to the garden area it eliminates watering, weeding or cultivating for the entire growing season. It has a blotter action absorbing rainfall and holds the moisture in the soil. The mulch acts also as a temperature control protecting the soil from intense heat and baking which retards normal growth. Let the Agromat enable you to have a more successful garden without the usual weeding and cultivating problems. Additional information on request.

Agromat requires no special wiring or plumbing to install. Tank capacity 10 gallons, shipping weight 140 lbs. Complete with a 1/2 H.P. shielded electric motor with starter and timer shut-off switch. Satisfaction guaranteed, \$184.50 COMPLETE.

Larger sizes also available—25 gallon model \$297.50
